

Are you the parent or caregiver of a child with a disability?

Have your say!

Parenting a child with a disability comes with exceptional challenges. How do you know what's best and what works? We can provide specially-tailored parenting support but we need your help.

This is your chance to tell us about your child's experiences as well as your own. Let us know whether you're getting enough parenting support and share with us the types of support you would like to receive.

We'll use your views to deliver a parenting program in ways that suit families across Queensland, Victoria and New South Wales.

If you have a child with a disability, aged 2–10, go to the *My Say* website and help us improve parenting services for your family.

To have your say and to find out more about the program, visit www.mysay.org.au

This program is funded by the National Health and Medical Research Council, Australia.
